SUPPLEMENTARY INFORMATION:

A. Purpose

A modern, streamlined and responsive customer experience means: raising government-wide customer experience to the average of the private sector service industry; developing indicators for high-impact Federal programs to monitor progress towards excellent customer experience and mature digital services; and providing the structure (including increasing transparency) and resources to ensure customer experience is a focal point for agency leadership.

This information collection activity provides a means to garner customer and stakeholder feedback in an efficient, timely manner in accordance with the Administration's commitment to improving customer service delivery as discussed in Section 280 of OMB Circular A-11 at <https://www.whitehouse.gov/wp-content/uploads/2018/06/s280.pdf>.

Section 280.7 established seven domains for measuring customer experience.

- Overall: (1) Satisfaction, (2) Confidence/Trust
- Service: (3) Quality

- Process: (4) Ease/Simplicity, (5) Efficiency/Speed, (6) Equity/Transparency
- People: (7) Employee Helpfulness

All High Impact Service Providers listed at <https://www.performance.gov/cx/HISPList.pdf> are required to ask questions in these domains of their customers. However, all agencies are encouraged to conduct their customer experience measurement in line with these standard measures.

As discussed in OMB guidance, agencies should identify their highest-impact customer journeys (using customer volume, annual program cost, and/or knowledge of customer priority as weighting factors) and select touchpoints/transactions within those journeys to collect feedback. For the purposes of this collection, Federal customer experience will focus on real-time transaction-level measures.

The results will be used to improve the delivery of Federal services and programs. It will also provide government-wide data on customer experience that can be displayed on www.performance.gov to help build transparency and accountability of Federal programs to the customers they serve.

For reference, the questions (also available on www.performance.gov) are below. All are on a Likert Scale

from 1 to 5 (1=strongly disagree to 5=strongly agree
